Pastor's Corner

WATER AND MAN'S HEALTH

"In the beginning, God created the heavens and the earth. Now the earth was formless and empty, darkness was over the surface of the deep, and the Spirit of God was hovering over the waters." Gen 1:1-2.

Water is an essential substance in life that predates man. It has a very wide diverse use, ranging from drinking to serving as a means of transportation. The importance of water vis-à-vis human health cannot be overemphasized. More than 60% of man is made up of water.

The kidneys perform a lot of functions in regulating body water. Adequate water intake is very essential in maintenance of good kidney functions.

As we hear our medical team enlightening us, let us heed every instruction given.

Full Obedience, is Key to My Breakthrough!!
